Colour temperature	6000K (Cool white)
Lumen - full	1,500 lm
Light source	LEDs
Beam angle	120°
Power requirement	North facing solar panel
Power consumption	10W
Solar battery	144wh Lithium battery
Charging time	~ 6 hours
Operating time	Dusk to dawn*
Operating temperature	-15°C ~ 70°C
Housing	Aluminium and polycarbonate
Light dimensions (LxWxH)	92 x 84 x 600mm
Solar panel size (LxWxH)	650 x 325 x 25mm
Cable length	5m (can extend to max 20m)
Weight	4.95kg
Protection rating	IP65 weatherproof IK08 impact
Warranty	2 Years

*Solar products are designed for dusk to dawn operation with added allowance for winter conditions. Please be aware that in winter, it is possible that for some nights, the light will not last all night due to inclement weather conditions limiting charging time. Solar is not recommended for any locations classed as critical lighting areas where lighting is required all night.
